# DIGITAL ECOSYSTEM FOR TEACHER TRAINING PROJECT

## Brief

Implemented by UNICEF in collaboration with the Ministry of National Education.

**DIGITAL ECOSYSTEM  
FOR TEACHER TRAINING PROJECT**

As our education systems quickly evolve in response to changing social, economic and digital needs, teachers are on the frontline of driving this important change. We must invest in building their capacity and providing the support they need to help our children reach their potential.

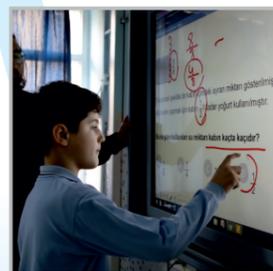

## Project Objectives

To strengthen the national institutional capacity with innovative and digital technologies.

To improve the quality of the existing digital education and training ecosystem and build the capacity of teachers to meet the requirements of the labor market so that they better serve all children.

**E-CONTENT** TEACHING AND LEARNING  
**DIGITAL PLATFORM** LEARNING ASSESSMENT  
 DIGITAL MONITORING SYSTEM  
**BLENDED** **DIGITAL SKILLS**  
 PROFESSIONAL DEVELOPMENT CURRICULUM DELIVERY  
**CLASSROOM MANAGEMENT**  
 TEACHER LEARNING LAB **DIGITAL TRAINING**

€ 3.75 million

Estimated 200,000 teachers, school administrators, and other educational personnel, working with students in K-12 throughout Türkiye.

## Results

Public knowledge and awareness in relation to the digital education and training ecosystems are increased.

Digital training modules covering teachers, school administrators and other education personnel are developed.

A digital teacher training platform is developed and linked with the Teacher Information Network.

Number of teachers and other education personnel with digital skills is increased.

# Activities

## February 2023

Organize a project opening ceremony and a project information briefing seminar

Prepare project background report

Develop a digital competency framework for teachers

Develop communication and visibility materials

Organize study visits

2023

Develop digital teacher training modules

Develop sample digital learning content and instructional tools

Develop a digital teacher learning monitoring system

Develop a digital teacher training platform

Establish teacher learning labs

2024

Organize press launch and a project pilot implementation briefing seminar

Provide training of trainers (ToT)

Provide online teacher trainings

Organize project monitoring visits

2025

Prepare an impact analysis report

Organize a closing ceremony and a national conference

2026

## January 2026
